

Razor Wire Trailer-ADS-3DR

A razor wire trailer (or mobile security barrier) is a portable, rapidly deployable security system designed to establish temporary perimeters in high-risk or sensitive areas. It combines mobility with robust physical deterrence, making it ideal for scenarios requiring immediate security reinforcement. It is a special - purpose security device mainly used by police and military forces.

3D razor wire trailer

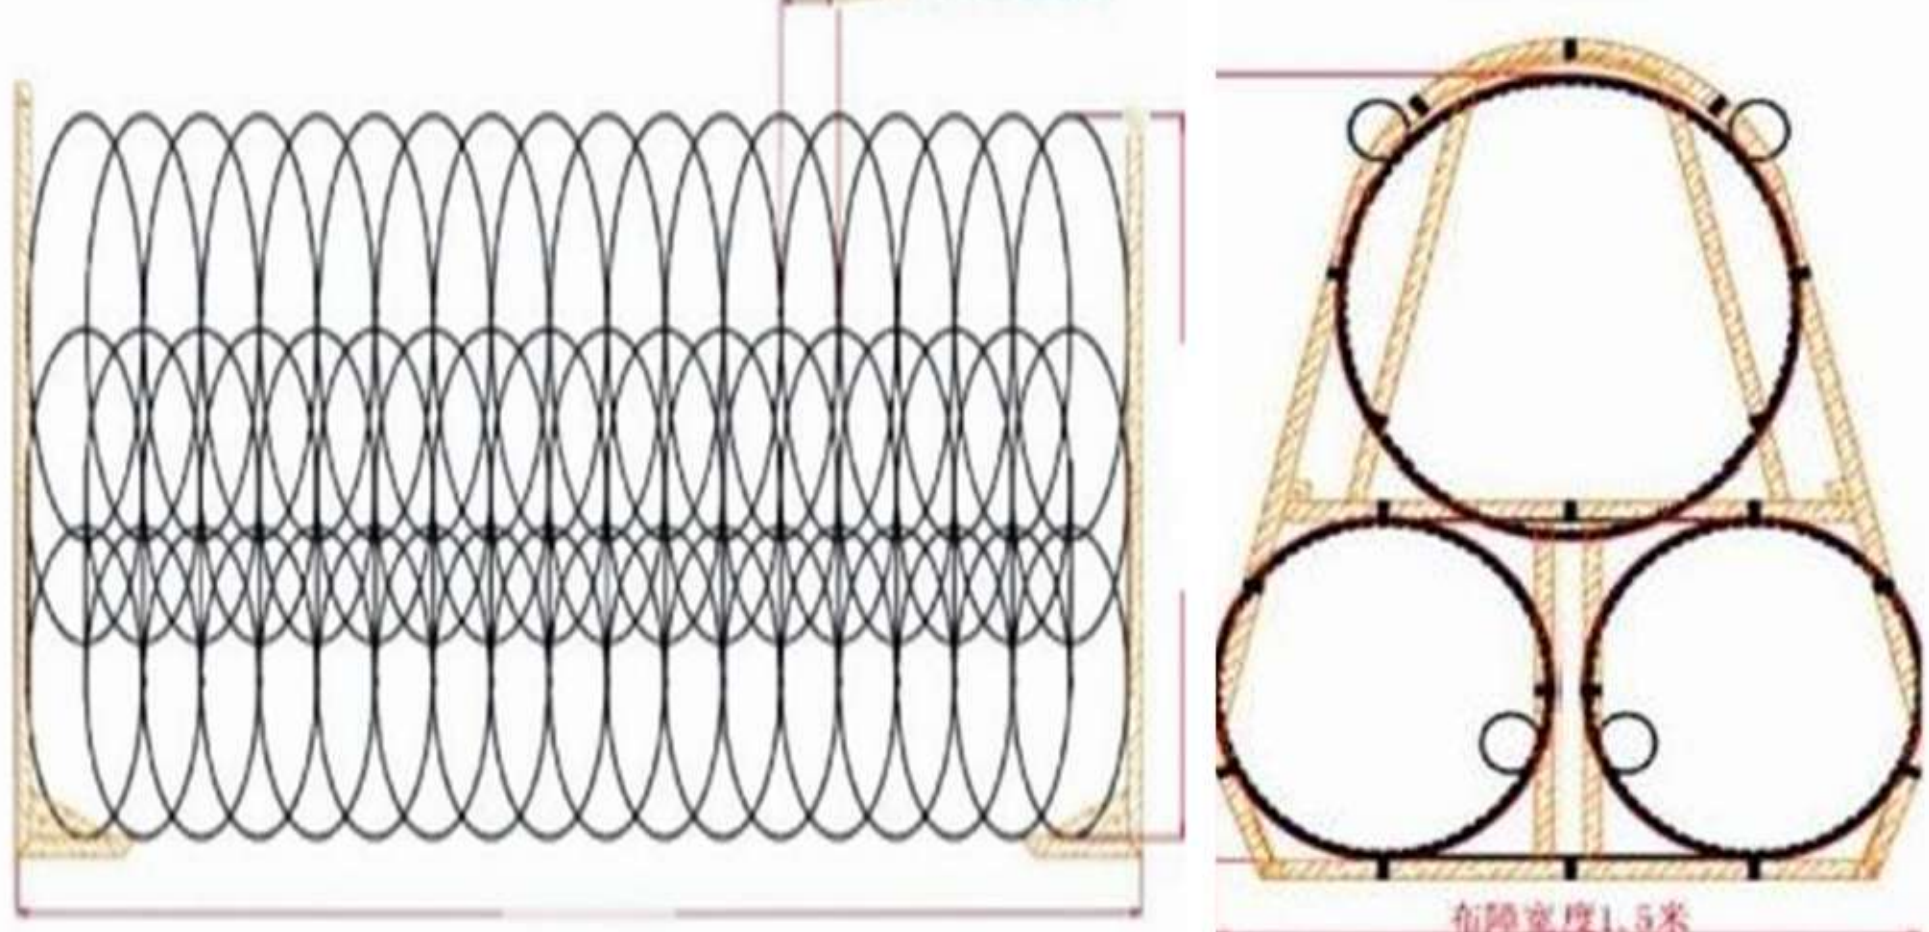

Razor Wire Trailer / Mobile Security Barrier-ADS-3DR	
Total Weight of Trailer	2,200KGS+/-300KGS
Trailer Size	5,800mm(L)x2,200mm(W)x2,300mm(H)
Razor Wire Type	BTO-22
Razor Wire Structure	Top coil diameter:980mm, Bottom coil diameter:730mm
Extended Length	100m/group,100m/set
Barrier-setting time	1-3 minutes
Barrier-recovering time	5-10 minutes(automatic recovery)
Accessories	chain coupling, toolbox, gloves, adhesive bandage, and stainless steel hook (Diameter: 8mm, Length: 650mm)

Razor Wire Trailer-ADS-3D

Introduction:

- 1.Complete vehicle equipment includes: towing device, universal wheel, manual mechanical handbrake system, toolbox, electromagnetic tailgate, etc;
- 2.Power unit includes: motor, battery, power indicator panel, remote controller, etc;
- 3.Retractable mechanism includes: stainless steel support arms, couplings, heavy-duty guide pulleys, chains, lifter , etc;
- 4.Supplied accessory includes: chain coupling, toolbox, gloves, adhesive bandage, and stainless steel hook (Diameter: 8mm, Length: 650mm)

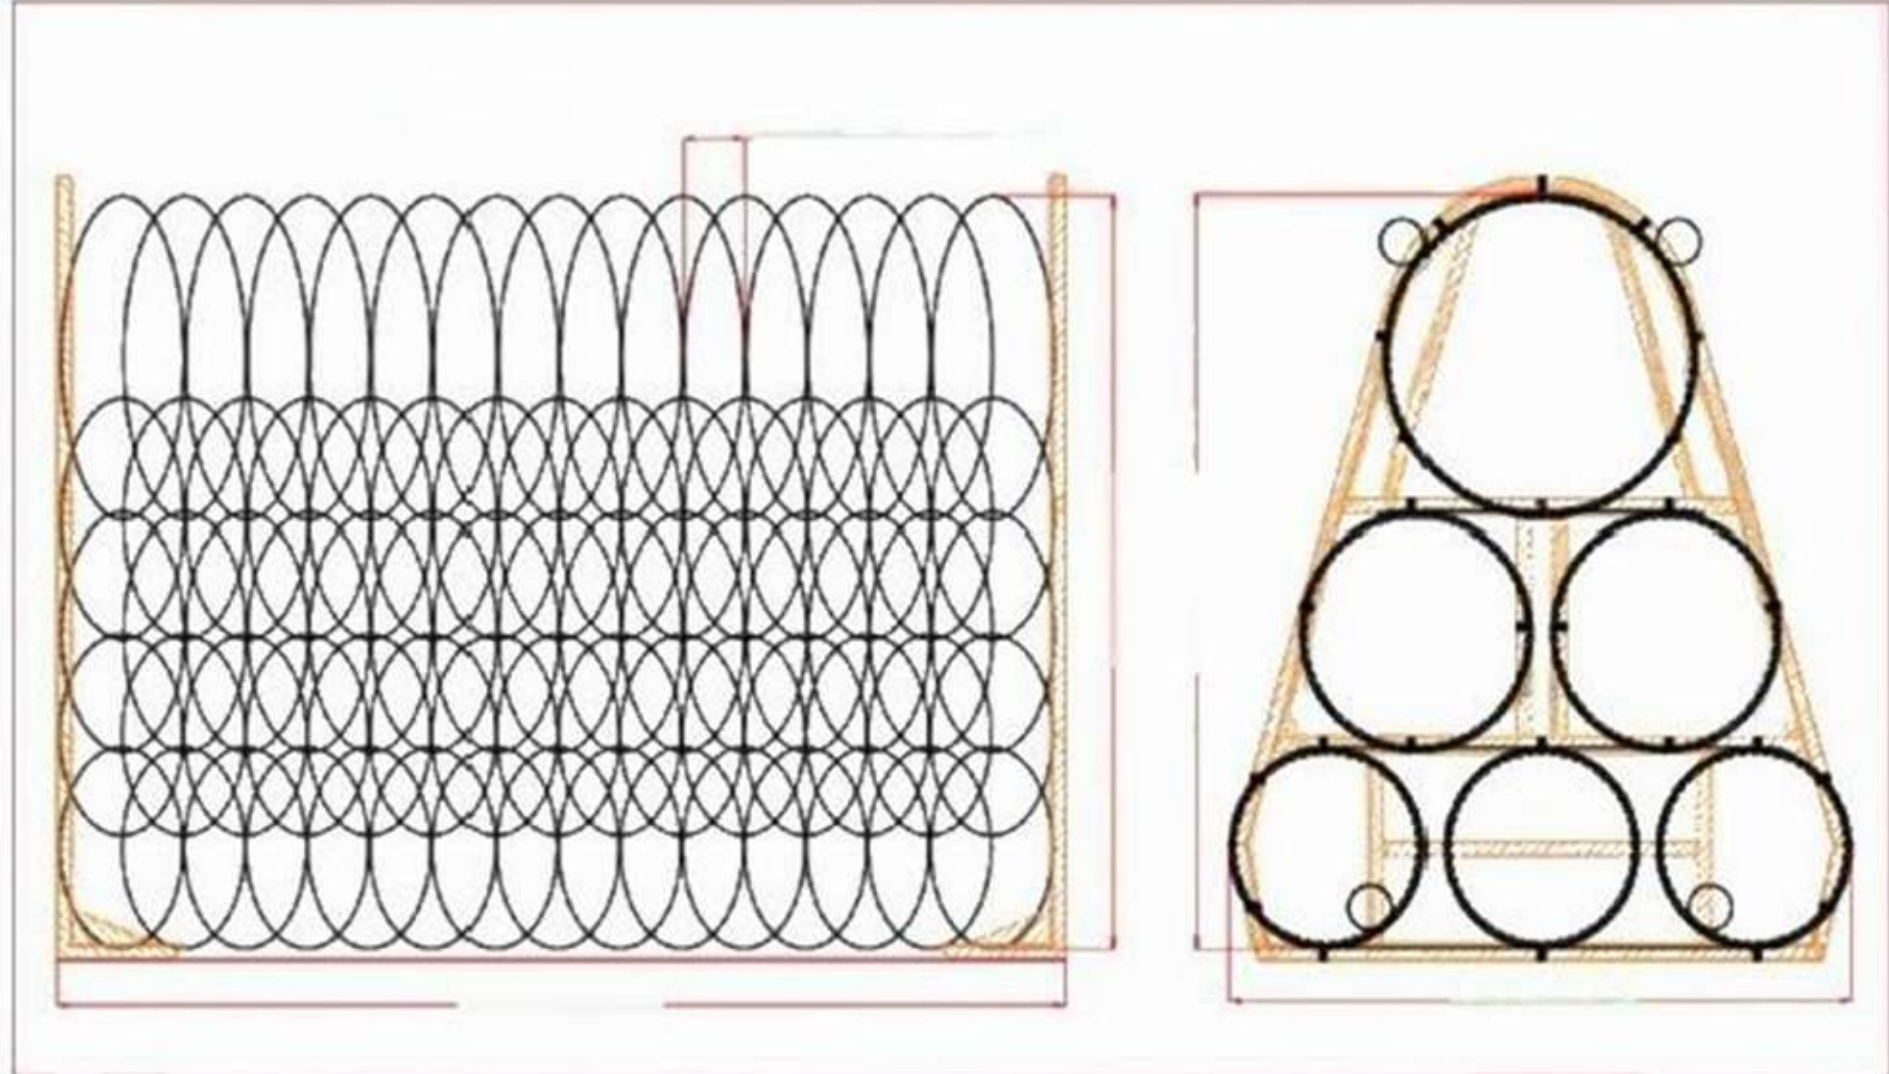

3D razor wire trailer

- 5.Complete vehicle equipment includes: low-carbon steel Q235, main square tube 2.5mm, window-side square tube 2mm, galvanized steel sheet 1.5mm, channel steel 120 national standard (GB) - chassis, equipped with 48V * 32Ah battery, 2 P235/70R16/106T off-road tires, 60*7mm dual-axle sliding leaf spring set, chain 08B-H1/Donghua chain 10A-1/Donghua double-row chain 10A-2;

Razor Wire Trailer / Mobile Security Barrier-ADS-3D	
Total Weight of Trailer	3,200KGS
Trailer Size	5,600mm(L)x1,930mm(W)x2,557mm(H)
Razor Wire Type	BTO-22
Razor Wire Structure	Top coil diameter:980mm, Bottom coil diameter:730mm
Extended Length	3 groups, 67m/group,200m/set
Barrier-setting time	1-3 minutes
Barrier-recovering time	15-20 minutes(automatic recovery)
Accessories	chain coupling, toolbox, gloves, adhesive bandage, and stainless steel hook (Diameter: 8mm, Length: 650mm)

Razor Wire Trailer-ADS-6D

6D razor wire trailer

Applications:

- Temporary Perimeter Security: For critical infrastructure, refugee camps, or crime scenes.
- Crowd Control: During protests or public events to restrict access.
- Military/Defense: Rapid fortification of forward bases or checkpoints.
- Emergency Response: Isolating disaster areas or hazardous zones.

Razor Wire Trailer / Mobile Security Barrier-ADS-6D	
Total Weight of Trailer	3,500KGS or 3,720kgs
Trailer Size	5,600mm(L)x2,080mm(W)x3,050mm(H)
Razor Wire Type	BTO-22
Razor Wire Structure	Top coil diameter:880mm Middle coil diameter:650mm Bottom coil diameter:550mm
Extended Length	3 groups, 50m/group,150m/set, or 100m/group,100m/set
Barrier-setting time	1-3 minutes
Barrier-recovering time	15-20 minutes(automatic recovery)
Accessories	chain coupling, toolbox, gloves, adhesive bandage, and stainless steel hook (Diameter: 8mm, Length: 650mm)
