

Welded Razor Wire

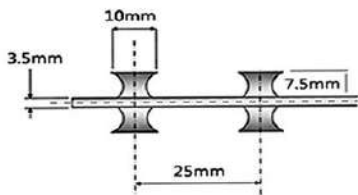

Technical overview

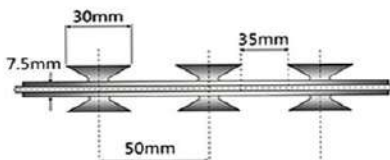

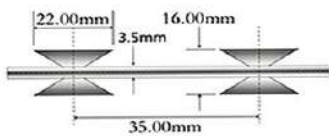

Welded razor mesh is a multi-functional high security mesh fencing made of straight-blade netting welded together, packaging into a roll form for transport. Razor wire mesh is used in operations to pave the field after the installation of a blade barrier. This product can protect you and your property, and ensures the safety of the protective barriers.

Product advantage

1. Virtually Impossible to Climb
2. High Tensile Core Wire
3. Very Difficult to Cut
4. Easy to Install
5. Neat Appearance
6. No need to install added razor wire
7. No secondary use - Averting Theft
